

# Is Cohousing Right For Me?

- Have you ever wondered what it might be like to live in a neighborhood that's intentionally designed, with a thoughtful balance of both privacy and opportunities for social connection?
- A neighborhood designed in a way that you can live lightly on the planet and conserve resources by collaborating with your neighbors?
- A neighborhood that gains it's strength from cooperation, community gardens, sharing and helping one another?
- Have you wondered what it would be like to help create such a community? What if a cohousing community were being created near you right now?

Check out our multigenerational community at one or all of the following events and find out how you and your family might benefit. Everyone is welcome, including children.
